## The new *twist* in solid surface.™

Looking for a way to make your project stand out from the crowd? Look no further than SpectraStone. This innovative material combines the performance of solid surface with a look all its own. The patent-pending twisted and shaped SpectraStone particles provide depth, texture and richness that add true distinction to any residential or commercial application.

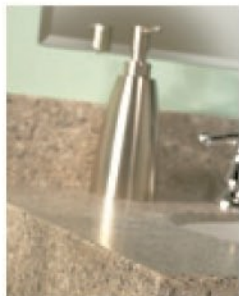

SpectraStone adds beauty and elegance to your bath. You'll enjoy all the durability, heat resistance, renewability and reparability of solid surface along with a bold new look and rich color combinations. The surface is completely non-porous, so it's inherently resistant to stains and odors. The colors range from neutrals to bold and exciting, and will compliment any home, from traditional to contemporary.

SpectraStone products are covered by a Ten-Year Limited Warranty and are ANSI Certified and Certified for both non-bacterial and mold growth by Universal Laboratories.

Timeless and elegant; bold and innovative; on trend and ahead of the curve. The SpectraStone color palette has been formulated to enable a greater degree of creativity in both residential and commercial applications.

*In addition to your bathroom decor, SpectraStone is an excellent choice for Kitchen, Tables, Desks, Lab Counters, and other commercial applications.*
